Surfaces

Without any particulars about the surface we'll deliver the front, rear and dummy panels blank, without chemical surface treatment. The following surfaces are optionally available :

Yellow alodined (ideal priming for further treatment)

Colorless anodized

Colored anodized (for example black)

Varnished to RAL

Drill holes

Front panels:

FP series with mounted drill holes for the side-pieces and elongated holes.

FPx-GR series with additional drill holes for handles.

Rear panels:

RP series with mounted drill holes for the side-pieces.

Dummy panels:

BP series with elongated holes only.

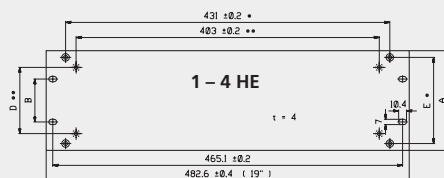

Special versions

We do mechanical treatments on front and rear panels (drillings, millings, etc.).

Front and rear panels are lettered by screen print or gravure, e.g. with your company-logo.
